PROFESSIONAL EXPERIENCE

MDM Consultant | TIBCO EBX Developer

Aug 2023 – Present

Alldatum Business · Mexico City, Mexico

3 years 2 months

- Implementation and configuration of MDM solutions on **TIBCO EBX**: data model design, Data Spaces and Datasets for customer, employee and location domains, on datasets of up to 200M records.
- Data cleansing and quality rules in **TIBCO EBX**: validations, constraints and corrections on master data records within the platform.
- Java extensions on EBX: triggers, constraints, custom validations, REST services, workflow scripts and importers — created from scratch or evolved from existing modules.
- EBX integration with external systems through **SnapLogic iPaaS** and native EBX REST services: Oracle, PostgreSQL, SQL Server and AWS.
- Telecom: designed cleansing and **Match & Merge** rules for customer data from two Central American countries, after researching each country's phone numbering plans and address standards; delivered clean, deduplicated data back to the operator.
- Data quality monitoring and reporting with **Power BI** and **SQL** to track governance KPIs for client projects.
- Five MDM implementations across **retail, manufacturing, financial services, pharma and telecom**, working with business and IT teams to translate requirements into EBX technical configurations.

Intern – Data and MDM Consultant

Dec 2021 – Aug 2023

Alldatum Business · Mexico City, Mexico
